

Sonar Chirp FishFinder

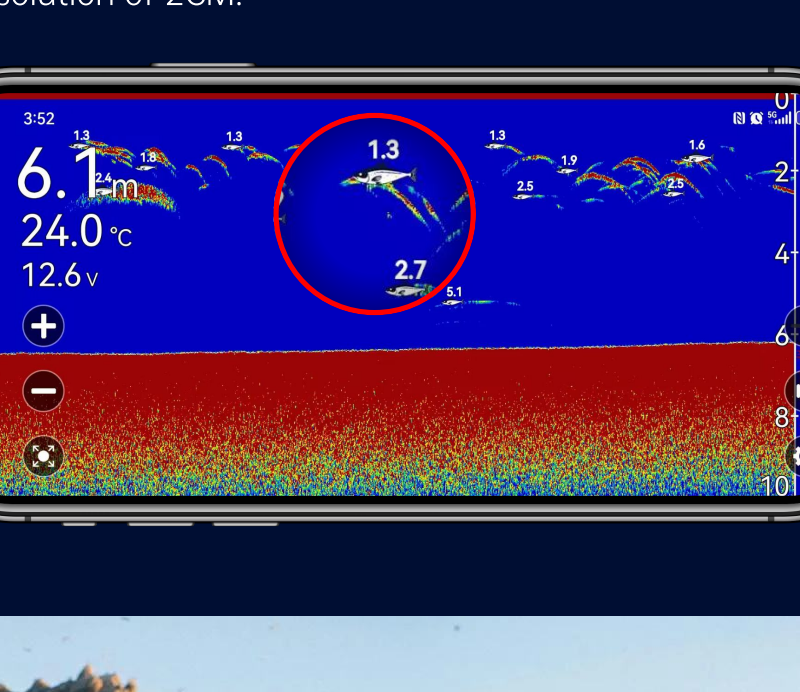

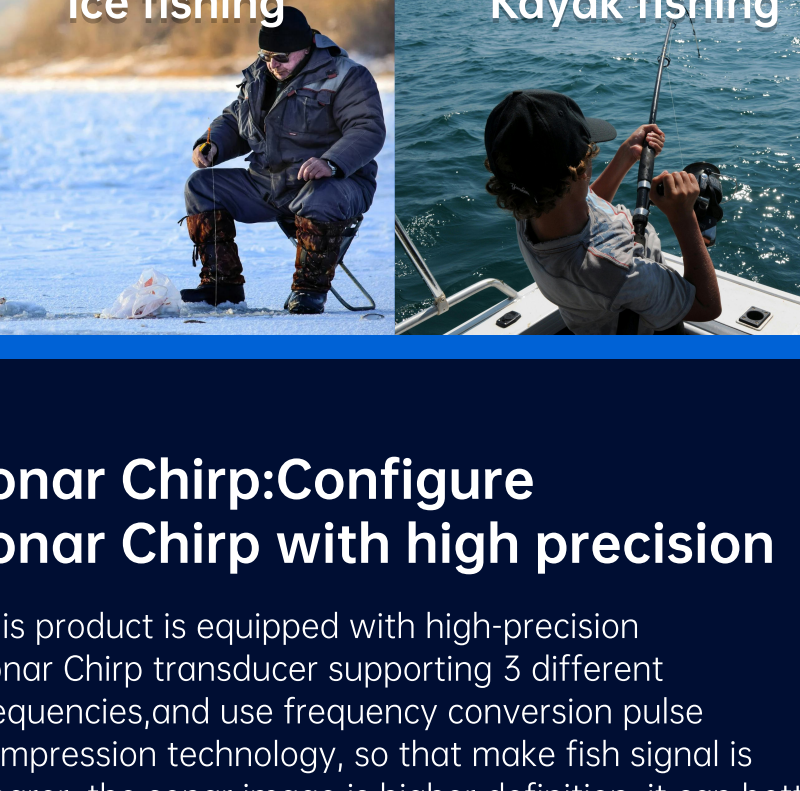

Support Bluetooth and WIFI connection

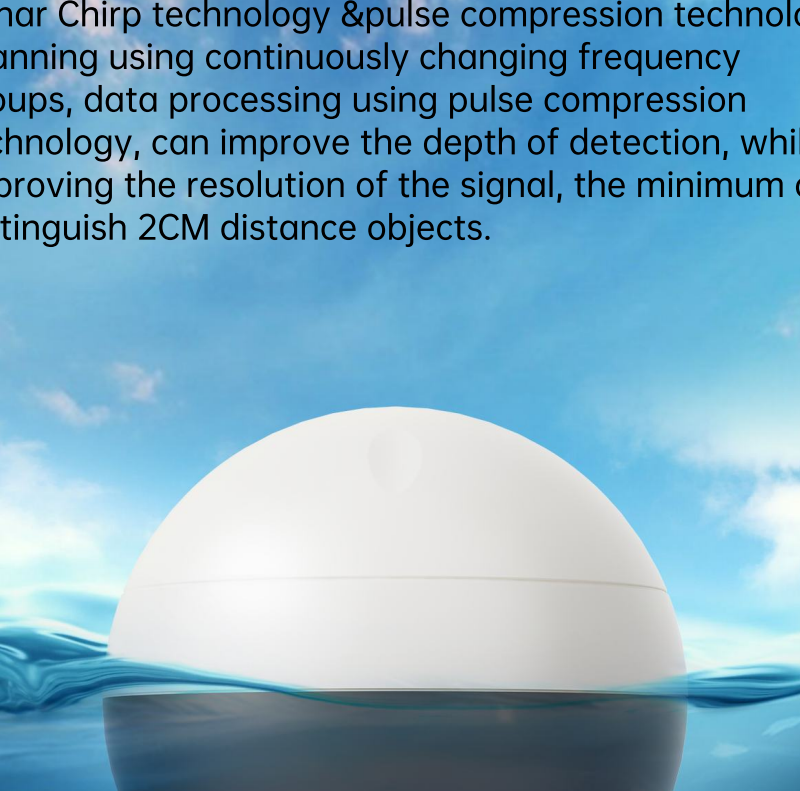

- Fish Icon
- Geology
- Water temperature
- Water depth
- Android&IOS
- Bluetooth WIFI
- Gain
- Depth adjustment
- Battery voltage
- Unit Setting
- Auto/ Manual
- Zoom key
- Background Setting
- Language
- Frequency Switch

Function

1. Showcasing Visual topographic underwater features&geological condition
2. It can detect the size, depth, school of fish, providing a good choice of fishing spots.
3. Can measure the temperature of the water, enhance the fun of fishing.

Suitable for the following fishing scenarios

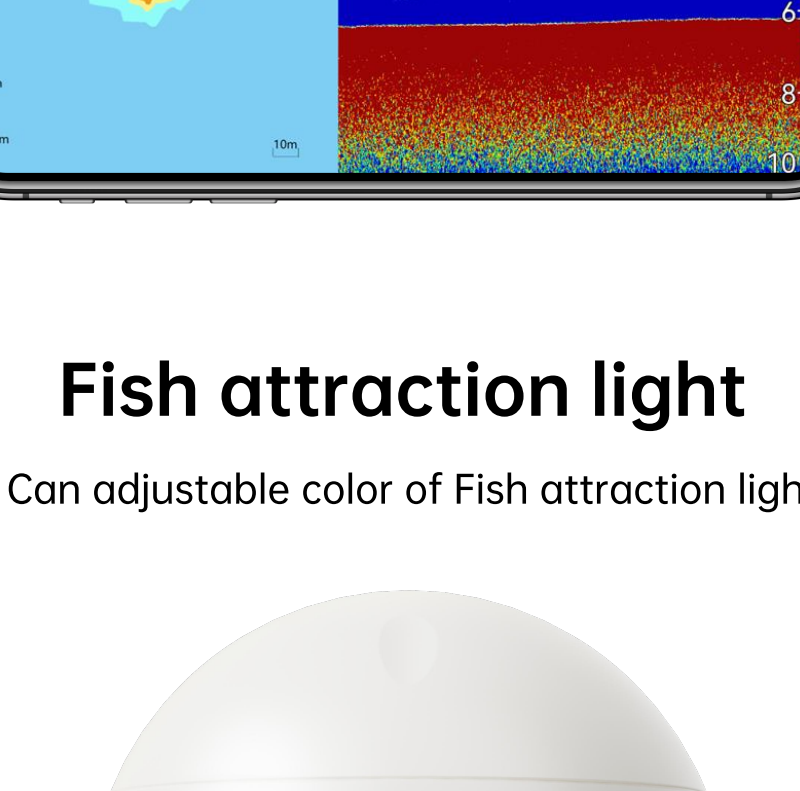

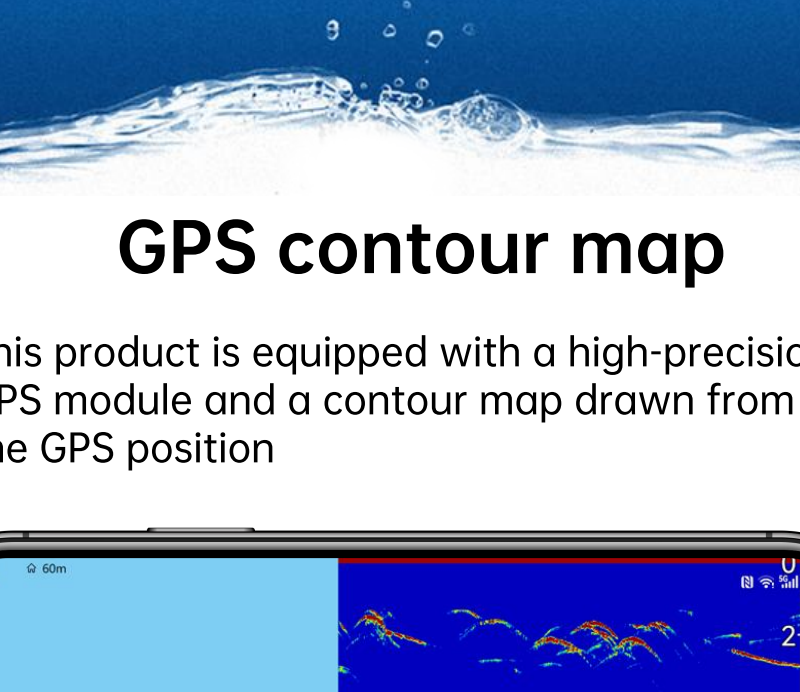

Sonar Chirp:Configure Sonar Chirp with high precision

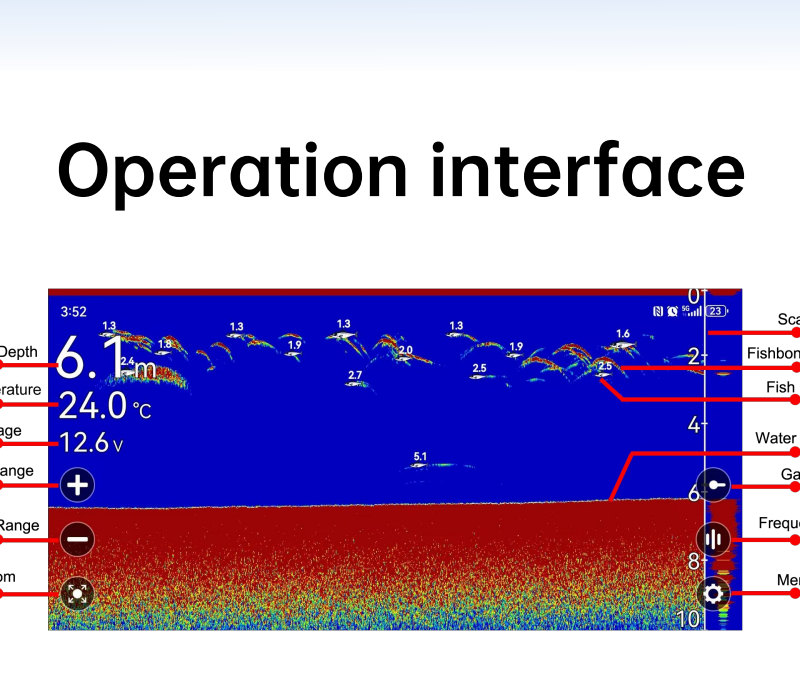

This product is equipped with high-precision Sonar Chirp transducer supporting 3 different frequencies,and use frequency conversion pulse compression technology, so that make fish signal is clearer, the sonar image is higher definition, it can better identify the small fish and grass, to achieve a minimum resolution of 2CM.

Wireless connection

Wireless can Interchangeable used

Cast out uses short antenna

Baitboat uses long antenna

High, Medium, low frequency combination

Sonar Chirp technology &pulse compression technology, scanning using continuously changing frequency groups, data processing using pulse compression technology, can improve the depth of detection, while improving the resolution of the signal, the minimum can distinguish 2CM distance objects.

Sonar frequency and Detection Angle

12° 500Khz 20° 200Khz 30° 128Khz

GPS contour map

This product is equipped with a high-precision GPS module and a contour map drawn from the GPS position

Fish attraction light

Can adjustable color of Fish attraction light

Operation interface

Product Parameter

- frequencies(128khz(3-80m),200khz(3m-40m),500khz(3-30m))
- Android&IOS,Ipad Display :Android&IOS,Ipad
- Bluetooth distance range 60m,WIFI distance range 100m
- 3 types of modules,GPS module
- Contour map
- Fish attraction light can adjusts color
- Gain adjustment, range (1-100)
- Zoom key can zoom in on specific areas
- Bottom contour and water temperature display showing
- Unit Settings for 4 displays
- Large ,medium and Small fish display Setting
- Fish icon& Depth Setting
- Multiple Language Settings (23)
- The battery can work continuously for four hours
